

Fahrizal Adi Wibowo

Engineer | Full-Stack Developer

*Hi, my name is **Fahrizal Adi Wibowo***

I'm an Engineer who has loved Technology and Design since childhood. With over 13 years of experience in Web and Mobile App Development, as well as UI/UX Design, I have cultivated extensive expertise across a broad spectrum of technologies and frameworks, including JavaScript, React Native, PHP, MySQL, MongoDB, Ajax and Laravel. My global experience includes collaborating with numerous startups, companies, and government institutions to develop a diverse range of applications, such as Social Networking Platforms, Marketplaces, Online Flight & Hotel Booking Systems, Information Systems, and Government Applications.

My vision is to assist individuals and organizations by transforming their ideas into next-level digital products. If you trust me with the opportunity to collaborate and create solutions for your personal or business challenges through a Design and Technology approach, I will dedicate myself and deliver my very best.

Thank you.

Pukul, Kraton
